

MCBS MAIN STUDY - ROUND 28, FALL 2000
COMMUNITY COMPONENT
CPS. CHARGE/PAYMENT SUMMARY

For continuing sample: Events that do not have any statement information (NS1=1) will be allowed to advance one round before they are taken to the No Statement (NS) questions. For example, events collected in Round 6 that do not have any statement information by Round 7 will be taken to the No Statement series in Round 7, events collected in Round 7 without statement information in Round 8 will go to the NS questions in Round 8 and so on. Note that this specification affects only Reason 1 for entering the CPS. For exiting sample, any event added during the SP's final round will be "finalized" during NS. If necessary, the program will skip to the appropriate CPS questions as described by the specifications. Charge bundles with any other legitimate "Reason" for entering CPS will do so as described below.

Turn "statement expected" flag off if charge bundle is 1 round old.

Events or charge bundles reported in previous rounds will be included in the Charge/Payment summary if at least one of the following conditions is met from a previous round (if more than one condition met, go in priority order 1-8):

1. The respondent was expecting to receive a Medicare or insurance statement (NS1=1);
2. (Event or bundle from No Statement): the total charge (NS2) or the copay amount (NS2b) was greater than \$1.00 or unknown and no payment had been made (NS19=2, REF or DK), or (CPS6=2 and CPS10=1 or DK) or (CPS6=REF or DK);
3. (Bundle from Statement including PM-only bundles): the amount remaining was greater than \$1.00 and no payment beyond Medicare had been made (ST58=2, REF or DK or ST61=2, REF or DK); or (CPS7=2 and CPS10=1 or DK) or (CPS7=REF or DK);
4. (Event or bundle from No Statement): some payment of known amount had been made, but the total of all payments was less than the total charge by more than \$1.00 or 2% of the total charge, whichever is greater.
5. (Bundle from Statement including PM-only bundles): some payment other than from Medicare of known amount had been made, but the total of all such payments was less than the amount remaining after the Medicare payment by more than \$1.00 or 2% of the amount remaining, whichever is greater.
6. The SP/family made some payment greater than \$5.00 and reimbursement was expected (ST67=1 or NS25=1 or CPS14=1).
7. The SP/family made some payment greater than \$5.00 and did not know whether reimbursement was expected (ST67=DK or NS25=DK).
8. Event added through Comments during previous round and NS1= 9.

For exiting sample: All events with outstanding charge information or no charge information at all (i.e., collected this round) will go to CPS from NS as appropriate regardless of how many rounds they have been in the database. This includes all IP stays brought through utilization during the current round for exit cases where the previous interview was not skipped (regardless of event end date) and all events collected during the current round for cases that skipped the previous interview (41s).

Further, to be included in the CPS, a previous round event of any type (including prescribed medicines, ostomy supplies, Depends, and bandages) must not have been bundled during the current round charge series.

If any number of prescribed medicine, ostomy, Depends, or bandages purchases is bundled in a previous round ST or NS, only the number of purchases specifically bundled should come into the CPS. For example: 5 of 10 Tylenol purchases were bundled in a previous round and the purchases meet a condition for inclusion in the current round CPS, only the 5 bundled purchases should be brought into the current round CPS.

Because bundles or events are defined by a previous round's ST, NS, or CPS series, IU stays, IP stays with "95" in the month field in the previous round, and OM alterations where OM30=95 in the previous round are not eligible for the CPS series.

PM events with PM6a and/or INT9 = REF, DK and any other events bundled with these events will not come into the CPS series.

OM events with OM25 and/or INT8 = REF, DK and any other events bundled with these events will not come into the CPS series.

However, if a PM event(s) with PM6a and/or INT9 = 0 or -9 is bundled with any other PM event(s) or any other type of event(s), these "other" events should come into the CPS series.

Sort bundles by reason for inclusion only. If more than one reason for inclusion, include the event or bundle under the first reason listed.

Use displays from NS series for CPSINTRO and EVENT headers for each event type.

Do not allow Interrupt during CPS series.

Events marked by the interviewer as "deleted" in any part of any summary, including the Utilization summary, the Home Health summary, the OM rental summary, or the PM summary, should not be included in the Charge/Payment Summary.
